LECS

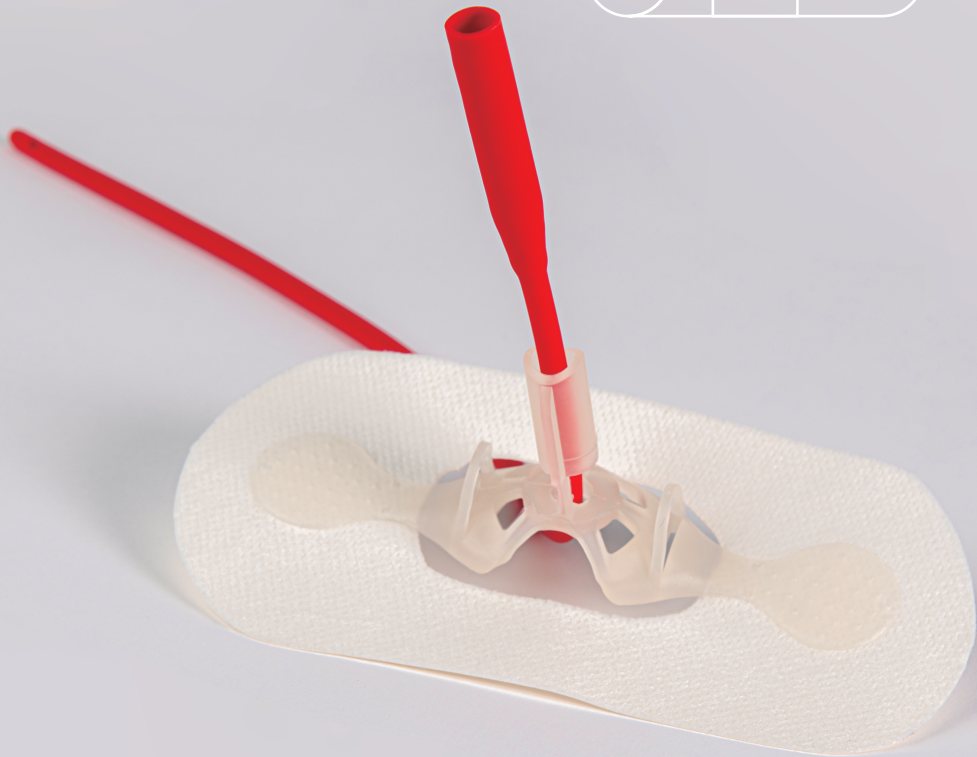

Levi External Catheter Stabilizer

IMPROVING SUPRAPUBIC CATHETERIZATION

- Facilitates monitoring
- Facilitates stoma management
- Ideal for uroflowmetry
- Allows for sexual activity, if one is healthy enough
- Significantly reduces kidney infection

REDUCES THE RISKS OF:

- a. Stoma stenosis
- b. Eliminates issues with urethritis
- c. Reduces urine infections

IDEAL FOR PATIENTS DEALING WITH SUCH CONDITIONS AS:

- ✓ Urinary retention
- ✓ Urinary incontinence or leakage
- ✓ Pelvic organ prolapses
- ✓ Spinal injuries or trauma
- ✓ Lower body paralysis
- ✓ Multiple sclerosis (MS)
- ✓ Parkinson's disease
- ✓ Benign prostatic hyperplasia (BPH)
- ✓ Bladder cancer
